The operation [REDACTED].

The goal was to eliminate an enemy asset. The operation was conducted on the basis of intel received from allies in Antigua & Barbuda. When conducting the operation, it was noted that there was an unknown enemy operative active in the [REDACTED]. Some evidence of the operation was possibly leaked to journalists.

The operation did not succeed [REDACTED]. Some key personnel were lost during the operation. It estimated that the operation drew the attention of known national operatives from Bolivia.

The overall operational performance was satisfactory. The operational situation is [REDACTED]. However, more operations in the area are advisable.
